Project 4: Advanced FortiGate Security Profiles

Week 1: Understanding Security Profiles

- **Task:** Research and present on various FortiGate security profiles, including antivirus, web filtering, and application control.
- **Deliverable:** Presentation on Security Profiles.

Week 2: Configuring Security Profiles

- **Task:** Configure and apply various security profiles on FortiGate to protect against specific threats.
- **Deliverable:** Security profiles configuration guide and documentation.

Week 3: Monitoring and Reporting

- **Task:** Implement monitoring and reporting features in FortiGate to track security profile effectiveness.
- **Deliverable:** Monitoring report and configuration details.

Week 4: Presentation and Final Report

- **Task:** Prepare a presentation and final report summarizing the implementation of security profiles, monitoring results, and recommendations.
- **Deliverable:** Final Report and Presentation.

Week
1

Research about the Security profiles has been made included in this [link](#)
